## SiteMat Hi Vis Walkway Matting

The perfect solution for highlighting walkways in construction sites, industrial environments, or any high-traffic area.

Offering exceptional value for money, this anti-slip high visibility matting ensures both safety and durability in areas where foot and vehicle traffic are common.

Its vivid bright yellow colour stands out, ensuring walkways are clearly marked, reducing the risk of accidental cross-traffic and enhancing site safety. Ideal for construction sites, industrial settings, and wet or dry environments, this matting provides high visibility, even in poorly lit areas.

Made from 100% PVC, this matting is biodegradable and recyclable, contributing to a cleaner environment. SiteMat reduces the need for cleaning chemicals, making it an eco-friendly and sustainable choice.

## Key Features

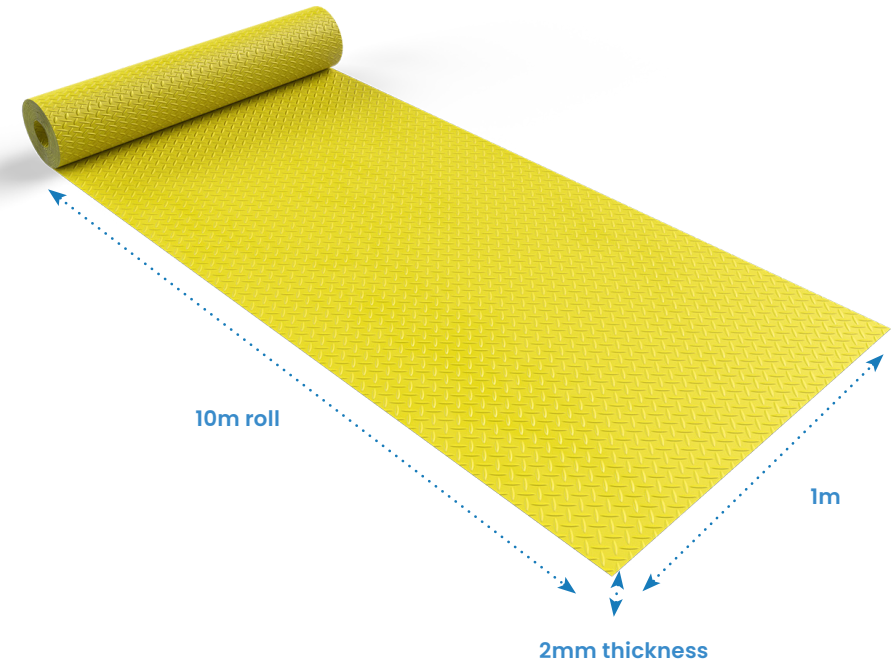

- Bright Yellow for Maximum Visibility
- Anti-Slip & Non-Directional Grip
- Quick and Easy Deployment
- Lightweight & Durable
- Material: 100% PVC
- Water-Resistant
- Overall thickness: 2mm

The perfect for walkways in construction sites, warehouses and factories or any high-traffic area.
