Pedestrian Mesh Access Gates

Our Heras fencing-compatible pedestrian gate provides a secure and convenient entryway to your temporary site and ensures the integrity and security of your perimeter is always maintained. A sliding bolt which can be fastened with a padlock provides an additional security measure.

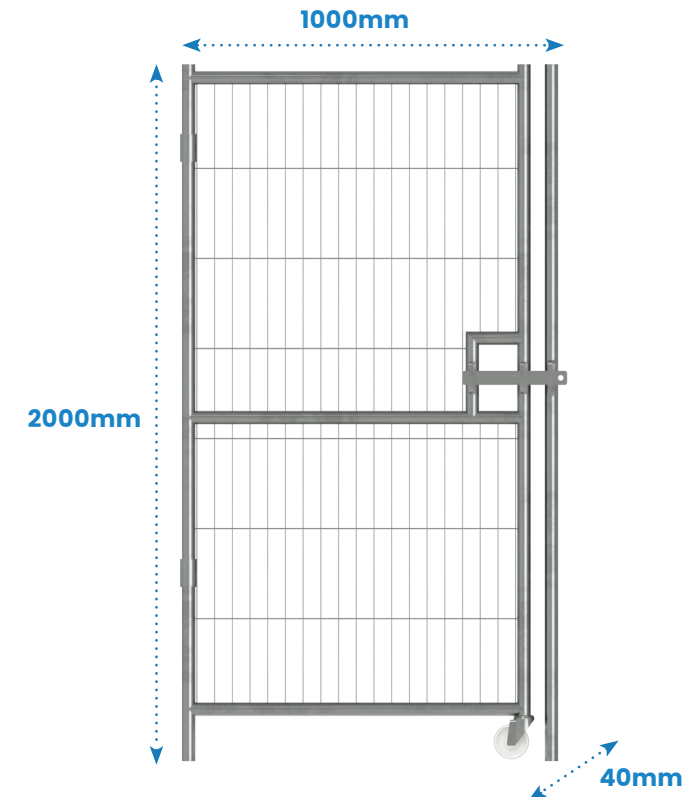

Though relatively lightweight, moving fencing panels when gaining access to a site isn't especially convenient. Available in either an anti-climb galvanised steel mesh or steel panel, this pedestrian gate is an easier option, with the added security of a sliding bolt that can be fastened in place with an appropriate padlock.

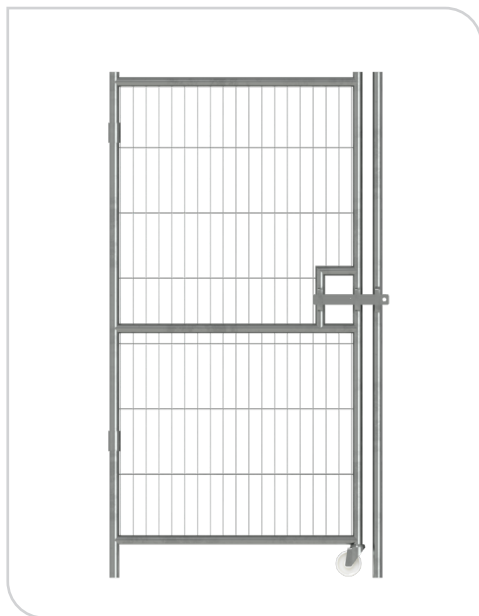

Description	Size (mm)	Weight (kg)
TFS100200 - Anti-Climb 2m High Unframed Ped Gate - Galv	H2000 x W1000 x D40	10
TFS1002010 - Anti-Climb 2m High Framed Ped Gate - Galv	H2000 x W1000 x D40	16
WFS152000 - Anti-Climb 2m High Unframed Ped Gate - White	H2000 x W1000 x D40	10
WFS152010 - Anti-Climb 2m High Framed Ped Gate - White	H2000 x W1000 x D40	16
TFS100250 - Heavy Duty 2" 2m High Unframed Ped Gate - Galv	H2000 x W1000 x D40	11
TFS100260 - Heavy Duty 2" 2m High Framed Ped Gate - Galv	H2000 x W1000 x D40	16
WFS152020 - Heavy Duty 2" 2m High Unframed Ped Gate - White	H2000 x W1000 x D40	11
WFS152030 - Heavy Duty 2" 2m High Framed Ped Gate - White	H2000 x W1000 x D40	16

Key Features

- Ideal for construction site access
- Suitable for high-traffic pedestrian access points
- Anti-climb or heavy duty mesh options
- Available in galvanised or white powder-coated finishes
- Unframed and framed options available

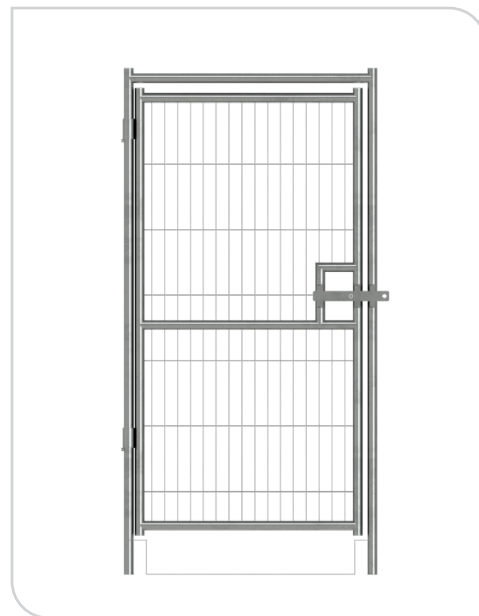

Anti-Climb Pedestrian Gate Options

TFS100200

HD 2" Mesh Pedestrian Gate Framed (White) 2.4m High

Size (mm)	Weight (kg)
H2400 x W1000 x D40	-

Temporary Fence Gate Example Setup

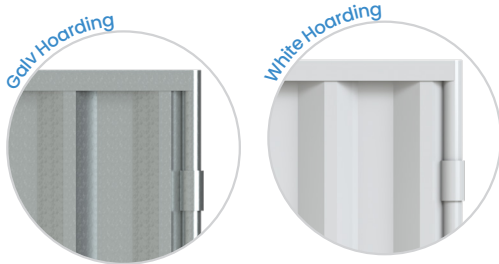

Item Needed	Code	Qty.
Mesh Anti-Climb Pedestrian Gate - Galv - 2m High	TFS100200	1
Pedestrian Gate Slam Post - 2m High	TFS100290	1
HD/Z Gripper Fence Coupler	TFS100520	4
HD Rubber Fence Foot	TFS100605	2

Steel Hoarding Pedestrian Access Gates

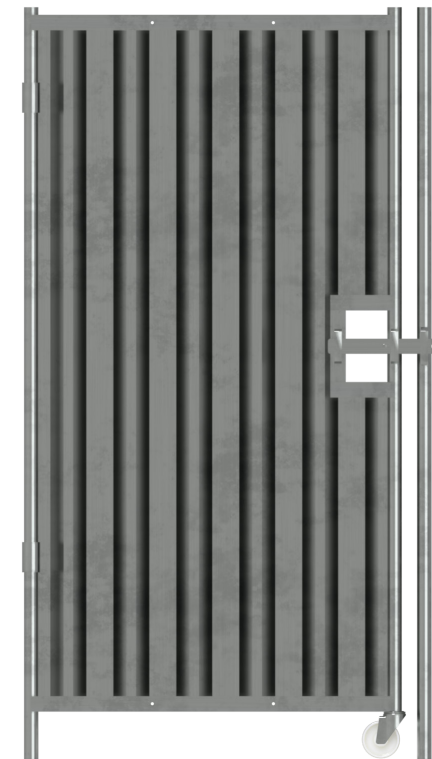

Our steel hoarding pedestrian gate provides a strong, secure access point that integrates seamlessly with temporary steel hoarding systems. Constructed from solid steel, it offers enhanced durability, privacy, and security compared to mesh alternatives, making it ideal for high-security or high-traffic sites.

A heavy-duty sliding bolt can be secured with a padlock to help prevent unauthorised access. Rather than removing hoarding panels to gain entry, this gate offers a practical and efficient solution for controlled pedestrian access while maintaining the integrity of the site perimeter.

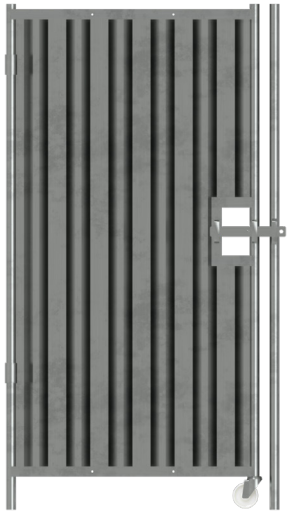

Key Features

- Ideal for construction site access
- Suitable for high-traffic pedestrian access points
- Anti-climb or heavy duty mesh options
- Available in galvanised or white powder-coated finishes
- Unframed and framed options available

Description	Size (mm)	Weight (kg)
