# SITEX SECURITY SCREENS

Sitex Security Screens creates a robust and reliable temporary screening solution, which is great for any vacant property or commercial premises. They obscure visibility and restrict access from the outside of your property or premises. Additionally the screens enable natural light to filter indoors for property inspections and promotes gentle ventilation.

## Key Features & Benefits

### Robust steel screen

Heavy duty and high level physical protection

### Visual Deterrent

A fully visible deterrent to trespassers and arson-resistant

### Installation

Can be installed over any opening and will cause no damage to existing framework or surrounding brickwork

### Range of Sizes

Comes manufactured in 50 or more sizes.
