Heavy Duty Road Trench Cover & Tread

Designed as a single person lift solution for easy transportation, this trench cover delivers maximum strength, durability, and safety; all while being environmentally conscious.

Engineered for performance and built to last, this is a heavy-duty road trench cover & tread that meets the rigorous standards of HAUC Advice Note No. 2018/01 and BS 7976: Part 2 for slip resistance.

The cover is consists of four PVC segments made entirely from recycled material, which can be easily replaced if damaged, and reinforced internally with high-strength steel bars.

Key Features

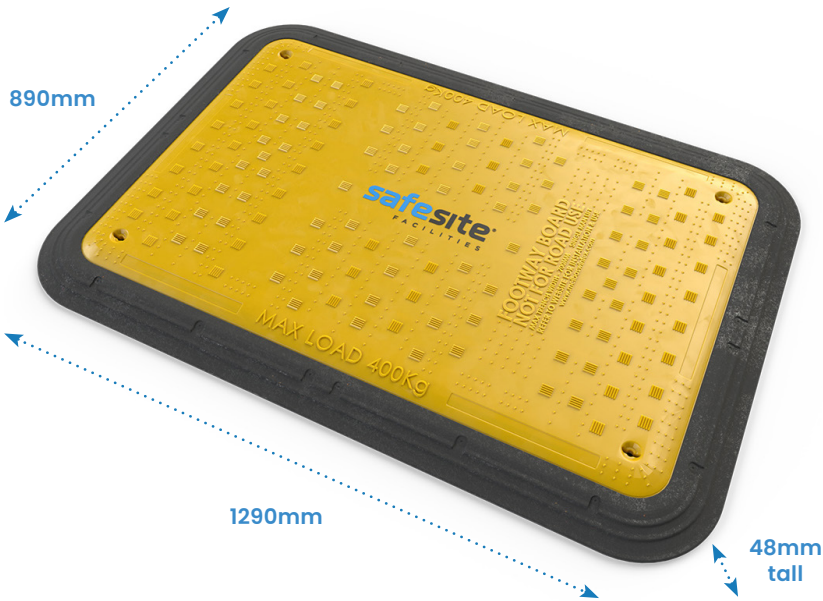

- Complies with HAUC’s 2018/01 Advice Note
- Manufactured in the UK
- 100% Recyclable Materials – including the PVC skirt
- High Load Capacity: Suitable up to 4 tonne vehicles
- Anti-slip tread pattern and anti-trip edge design
- Built-In Handles: Ergonomic and practical for swift deployment

PVC Skirt for Increased Grip

48mm Tall & Max Load 400kg
