Spaghetti PVC Site Walkway Mat

Ensure safety and reliability with the Spaghetti PVC Site Walkway Mat – the ultimate solution for high-traffic areas that require both practicality and durability.

Whether you're in construction, industrial settings, or any high-impact zone, this mat provides the protection and ease of maintenance you need. A single line can be rolled out in under 5 minutes and only requires 2 people to install, which can be easily cut down to size with a Stanley knife for a custom fit.

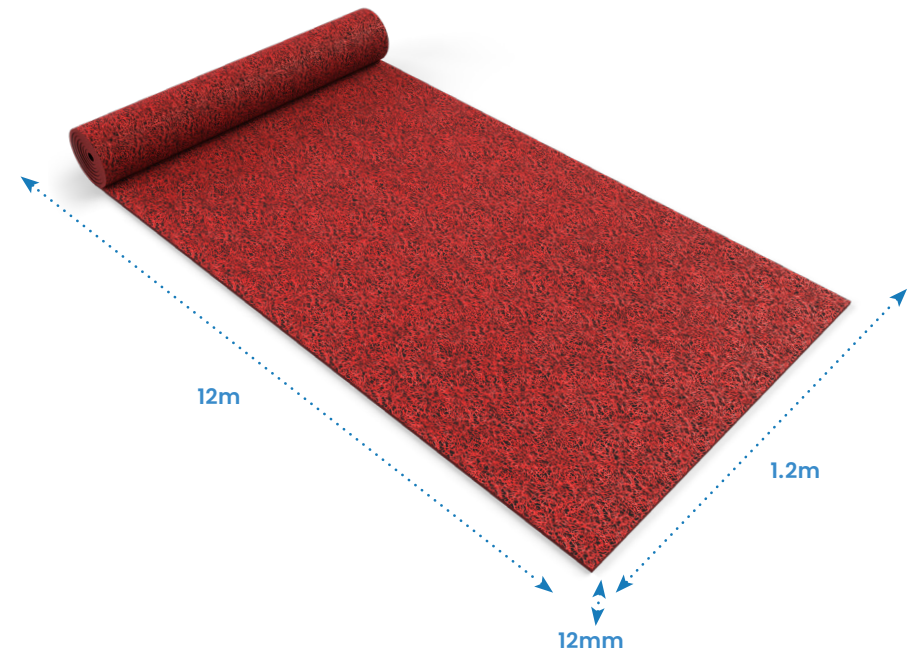

Available currently in Yellow, Red, Green & Grey

Anti-Slip Surface

Key Features

- Heavy-duty PVC Construction
- UV Protection – Prevents discolouration
- Reversible Design
- Eliminates puddles by ensuring water and dirt drain away
- Easy to Trim – Cut to size on-site
- Anti-slip Surface – Provides traction and safety, even in wet or hazardous conditions.
- Other colours available on request
