## Euro 2m Barrier

Euro 2m road barriers are a simple to deploy solution to redirect and separate traffic flow. They feature purpose-designed top grooves for full compatibility with reflective post and plank safety systems. Requiring no heavy lifting machinery to install, they're fully stackable for convenient transport and storage.

These heavy ballasted, stabilised prime polyethylene Euro 2m Road Barriers comprise a simple interlocking-pin design, allowing easy and gap-less pivoting around corners and turns.

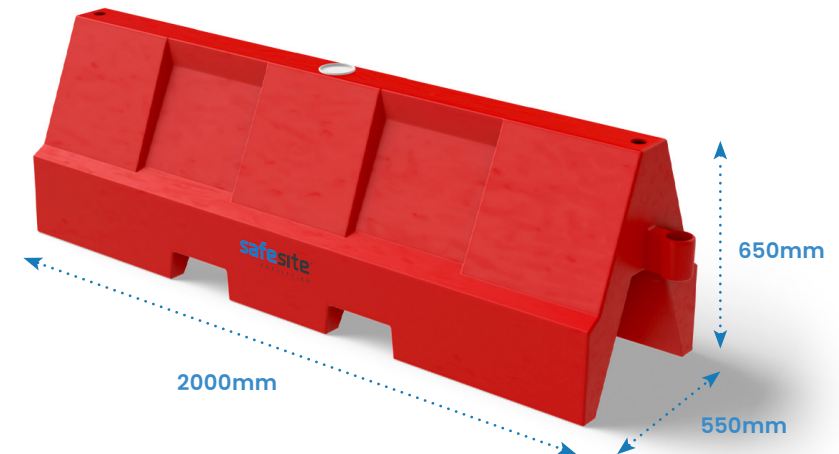

Euro 2m Barrier with Mesh Fencing

Euro 2m Barrier in situ

## Key Features

- High strength and durability
- Interlocking pin allows for pivoting around corners
- Requires no heavy lifting machinery
- Compatible with reflective post and plank
- Fully stackable for transport and storage
- The ideal way to redirect and separate traffic flow
- Allows for angles and curves

## Euro 2m Barrier Specification

Description	Size (mm)	Weight (kg)	Filled Weight (kg)
WFS150300 – Euro 2m Barrier Red	H650 x W2000 x D550	19	110
WFS150310 – Euro 2m Barrier White	H650 x W2000 x D550	19	110
WFS15020 – Euro 2m Barrier Mesh Panel	H590 x W1995 x D38	5	-
