## Temporary Manhole Cover

Ensure safety and efficiency on your construction site with our Temporary Manhole Cover.

It fits standard-sized manholes and installs quickly with the included key. Safe, reusable, and built for repeated use, it's a smart solution for temporary worksites.

Tested to withstand up to 4 tonnes at the central loading point (depending on ground conditions), it's ideal for high-traffic construction areas. A key-operated lock helps prevent theft, while its sealed design protects drains from debris and blockage.

Lightweight and compact, it's easy to store and transport. Whether for roadwork, utility repairs, or emergency access, this cover offers a reliable, secure way to protect open manholes and keep your site running smoothly.

Cover being installed & locked

Cover can hold 4 tonnes

## Key Features

- Safe and reusable
- Fits over a standard-sized manhole
- Quick and efficient Installation
- Weight tested up to 4 tonnes
- Reduced chances of theft; key required for removal of the system
