Sliding Vehicle Access Gate

Ensure smooth and secure vehicle access with SafeSite's Sliding Vehicle Access Gate, available in both single and double leaf configurations.

Choose from a 3.15m clear width for compact access points or a wider 6.3m option to accommodate larger vehicles.

Made from robust galvanised steel, the gate can be supplied with anti-climb mesh and is available with optional powder coating in RAL or BS colours to suit your site's branding. Compatible with a wide range of perimeter fencing systems, this gate provides a flexible, secure, and ready-to-install solution for various access requirements.

Key Features

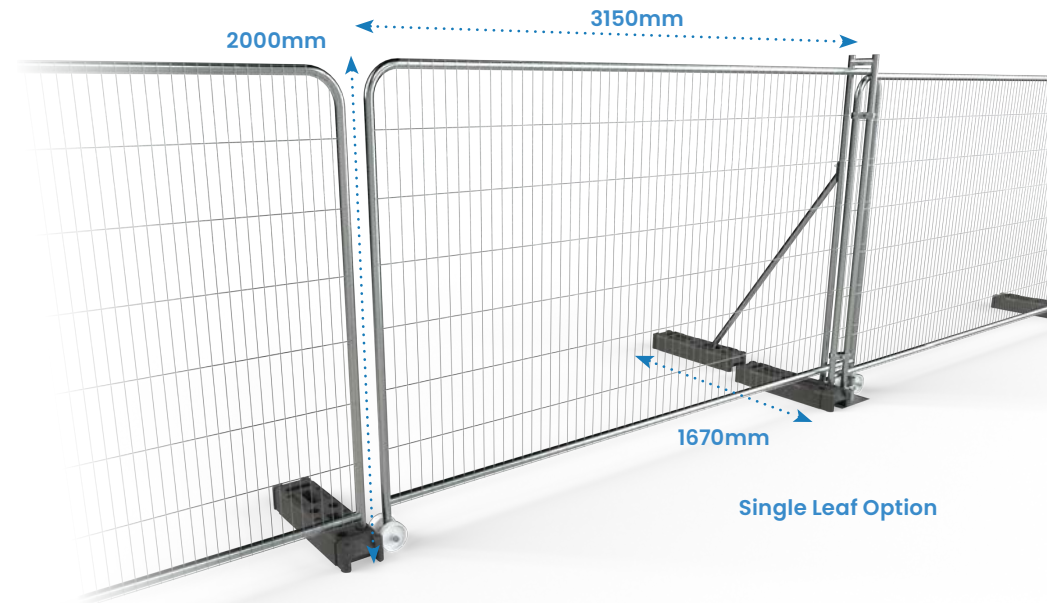

- Fully deployable
- Ideal for construction, events, and vehicle-controlled zones
- Compatible with all our temporary fencing systems
- Space saving sliding gates to maximise on areas with limited entry points
- Sliding gate options for 3m & 6m
- Optional chain and lock for additional security

Option for single or double leaf
