3m Concrete Barrier

SPECIFICATION SHEET

3m Concrete Barrier

★ Trustpilot

If you are looking to prevent vehicular access at vulnerable sites such as vacant premises, car parks or warehouses, you will find our high level security concrete barriers a simple and cost-effective solution.

With each weighing more than two and half tonnes, our three meter concrete barriers are virtually impossible for would-be trespassers, such as thieves, vandals and travellers to move without access to specialised lifting equipment. These reinforced barriers which are also available in 1.5m and 2.5 metre lengths are also ram-resistant, providing you with additional peace of mind.

Whether you are looking to purchase or hire concrete barriers, you can trust Safe Site Facilities to deliver and deploy them quickly and safely, wherever your site is located in the UK. Call our team of security experts today to discuss your needs and to receive a free, no obligation quote.

3m Concrete Barrier Spec
