Covid-19 Hand Wash Station

SPECIFICATION SHEET

Covid-19 Hand Wash Station

Our portable hand wash station provides all your COVID-19 hygiene facilities in one moveable welfare unit.

The compact unit comes complete with a hand sanitiser dispenser, hand towel dispenser, water spray bottles and a 25 litre waste bin for hand towel waste. There are two shelves to store additional items. On the reverse of the station are two more shelves for storing items such as Personal Protective Equipment and first aid kits.

Our mobile hand wash unit is suitable for any site or workplace. Its self-contained design and portability means you can position the unit exactly where it is needed, whenever is needed. The unit can be anchored to the ground by 4 x anchor location points or water ballast filled on the base. All other parts shown (e.g. first aid box, fire extinguisher, gloves etc) are for illustration purposes.

Covid-19 Hand Wash Station Spec
