

Titan Barrier

SPECIFICATION SHEET

Titan Barrier

Available for hire or purchase and delivered nationwide, Titan barriers are the strongest and most robust barrier of its kind available on the market.

Thanks to their ingenious design, these 100% recyclable barriers stack compactly and neatly, saving you space and keeping your transportation costs to a minimum. We offer Titan barriers in two widths (1.5m and 2m), with heavy duty or anti-trip feet supplied as desired.

1.5m Titan Barrier Specification

Titan Barriers In Action

Here are some examples of our robust Titan Barriers being utilised on site.

This blockade is perfect for re-routing both vehicular and foot traffic, and enclosing potential hazards (*street works, potholes etc.*) to ensure the safety of the public.

The unique design allows for simple and practical storing, stacking, and unloaded.
