500 Litre Crane Lift Mortar Tub

Built for strength and convenience, our high capacity mortar tubs are designed for easy handling and compact storage.

Each unit is rigorously tested to meet industry safety standards, providing a reliable solution for transporting mortar safely across construction sites. Made from premium MDPE and reinforced with a full steel frame and durable handles, these tubs are built to endure the toughest conditions. With spacious capacities reaching up to 500 litres, they are versatile enough for transporting, storing, and disposing of essential materials such as mortar, concrete, and cement.

Steel 4 Foldable Handles

Reinforced steel rim for secure and safe crane lifting

Key Features

- > Heavy duty design
- > Robust steel rim with four folding handles
- > Rotationally moulded for maximum strength
- > Crane lift compatible
- > Made from MDPE & UV Protected
- > Stackable for compact storage
- > Manufactured in the UK
- > Other mortar tubs & sizes available
